- D. Approve processing of hourly permit fees by the city planner and engineer. \*(p.96)

### <u>ADJOURN</u>

<sup>\*</sup> Denotes items that have supporting documentation provided

June Council Meeting Minutes In Process

MINUTES
OF THE CITY COUNCIL
FOR THE CITY OF
BIRCHWOOD VILLAGE
WASHINGTON COUNTY,
MINNESOTA HELD
June 29th, 2023, 6:30 PM

Mayor Ford convened the meeting at 6:30 pm. Roll call indicated all members present.

# PLEDGE OF ALLEGIANCE

Pledged.

# APPROVE AGENDA

Moved by McCarthy, Seconded by Weier to Approve as Amended with the deletion of item, "B," from the Original Agenda. **All aye**.

## **AGENDA**

A. Presentation of Proposal From Our City Engineer, Marcus Johnson 10 Year Plan To Improve Birchwood Roads

Marcus Johnson presented a proposal from Bolton and Menck for phase one regarding potential road improvement projects in the City. Phase one would be evaluative in nature and scope with the notion that identifying the areas of greatest need and determining if other infrastructure is implicated would be good data from which to then design projects and determine financing and/or project them out in CIP format. Handouts were distributed.

Discussion with the engineer and Council included the use of robotics in the process of evaluation and creating a scope for a CIP. Also discussed and tacit approval given to work on an application for Federal assistance for scoping infrastructure (e,g. lead pipes) due July 31<sup>st</sup>.

Moved by the Mayor and Seconded by McCarthy to authorize Bolton and Menck to employ robotics to assess street conditions with a not-to-exceed budget of \$2000.00. **All aye**.

Moved by Mayor and Seconded by Hankins to prepare a CIP based on the survey with a deliverable in the form of a map of the community that reflects the condition and location of the City's infrastructure; roads and pipes, primarily and recommendations for projects/project areas. Mayor, McCarthy and Hankins **aye**; Foster and Weier **nay**. **Motion passes 3-2.** 

# OPEN PUBLIC FORUM

Nobody presented.

# **ANNOUNCEMENTS**

None.

# <u>ADJOURN</u>

Moved by Foster to adjourn, Seconded by Mayor; all aye.

Meeting adjourned at 8:00pm.

# **Treasurers Report**

- 1. Water Main break costs submitted as of 7/5 for the water main break = \$8,154.28
- 2. Semi-Annual permit software bill for \$2000
- 3. Therese paid for the portable bathroom for the parade. The Community club had forgotten to order.
- 4. A \$6000.00 correcting entry was made in CTAS. This was for 469 Lake Ave. They owed for engineering fees. I subtracted the two \$3000 escrow payments made and they wrote a check for the net amount due. I should have had them pay the full amount and reimbursed from escrow to get the escrow balanced. This is a net entry. You will see a receipt for \$6000 in permits and a disbursement of \$6000 for escrow.
- 5. LMC sent us a check for \$352 for the credit on our property/casualty bill. I asked them to VOID so I wouldn't have to deposit and then write them a check, however, their billing department requested I deposit and write them a check so I did.
- 6. June Reconcilement is complete. I will need a council member volunteer to come in and review the mid-year reconciliations. I can be available outside business hours as needed. Please contact me on my cell phone 612-723-4506. I would like to schedule this review to occur the week of July 17.

Ms. Kellen:

My college age son mows John Fleck's properties including his residence on 425 Hall Avenue.

On May 31st while mowing the grass along the street, his mower struck a street sign stub that was sticking up approximately 2.5 to 3 inches above the ground. From the force of the blade striking this stub, the mower's engine was ruined due to a bent crankshaft with repairs running over \$1100 estimated (please see attached estimate from Hugo Equipment).

I have included many pictures also of this steel stub. The raw, ragged top edge of it shows it to have been cut off with a welder's cutting torch at some point. This amounts to a dangerous

situation, not just for someone mowing, but to any walker, bicyclist, or other person who might

fall onto this protruding stub.

It is clear this remaining post should have been removed by the village when the other sign location was established closer to the road as the picture indicates. Why was this not done?

I am asking the City of Birchwood Village to cover the repair costs of the ruined lawn mower,

a Toro 21" PROLINE Commercial mower.

Please call me at 651-334-5357 to discuss the next steps.

C. Ryan Solberg White Bear Lake

- □ <u>Legal description</u> of property.
- Plot plan drawn to scale showing existing and proposed new and changed structures on the lot. Also show existing structures on adjacent lots.

Criteria for Granting a Variance. Pursuant to Minn. Stat. Sec. 462.357, subd. 6, as it may be amended from time to time, the Planning Commission may issue recommendations to the City Council for variances from the provisions of this zoning code. A variance is a modification or variation of the provisions of this zoning code as applied to a specific piece of property.

Variances to the strict application of the provisions of the Code may be granted, however, no variance may be granted that would allow any use that is prohibited within the City. Conditions and safeguards may be imposed on the variances so granted. A variance shall not be granted unless the following criteria are met:

#### SUBD. 1.

- A. Variances shall only be permitted
  - i. when they are in harmony with the general purposes and intent of the ordinance and
  - ii. when the variances are consistent with the comprehensive plan.
- B. Variances may be granted when the applicant for the variance establishes that there are practical difficulties in complying with the zoning ordinance.

SUBD. 2. "Practical difficulties," as used in connection with the granting of a variance, means that

- Special conditions or circumstances exist which are peculiar to the land, structure, or building involved.
- ii. The condition which result in the need for the variance were not created by the applicant's action or design solution. The applicant shall have the burden of proof for showing that no other reasonable design solution exists.
- iii. The granting of a variance will result in no increase in the amount of water draining from the property.
- iv. Granting the variance will not impair an adequate supply of light and air to adjacent property, or unreasonably diminish or impair established property values within the surrounding area, or in any other respect impair the public health, safety, or welfare of the residents of the City.
- y. No variance shall be granted simply because there are no objections or because those who do not object outnumber those who do.
- vi. Financial gain or loss by the applicant shall not be considered if reasonable use for the property exists under terms of the Zoning Code.

#### **NOTICE:**

\*The City and its representatives accept no responsibility for errors and/or damages caused due to incomplete and/or inaccurate information herein. It is the responsibility of the applicant to ensure the accuracy and completeness of this information.

\*The City will hold applicant responsible for any damage to public property that occurs in the course of performing the activities of this permit.

\*Under penalty of perjury the applicant declares that the information provided in and enclosed herewith is complete and all documents represented are true and correct representations of the actual project/building that will be built in conformance with such representation if approved.

#### Variance Form #4 - Specific Code Provision from which Variance is requested:

1. Minimum Setback Requirement. Variance is requested for relocation of a deck and "Steps to Lawn" from City Code 302.020 (2) that states the minimum setback requirement from the High Water Level of White Bear Lake is 50'.

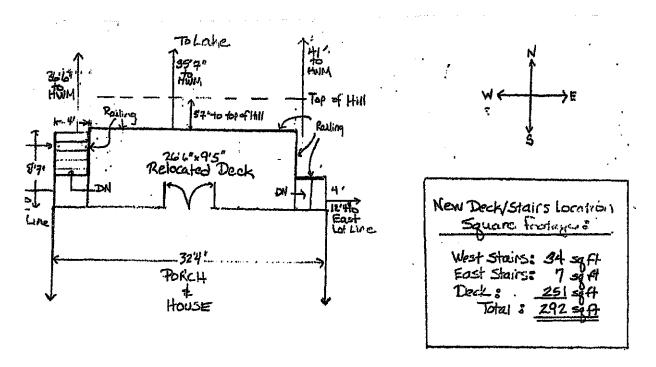

### Variance Form #5 - Describe in narrative form what the Applicant is proposing to do that requires a variance:

- 1. Background:
  - a. The property currently has a non-conforming pre-existing deck at the water's edge. Details of existing deck:
    - i. Setback from the High Water mark: 8'
    - ii. Setback from the West lot line: 0' (deck is abutting the lot line)
    - iii. Setback from the East lot line: (N/A located on West side of property)
    - iv. Dimensions: 17'9"x13'8", Area: 242.64 square feet
  - b. The property currently has non-conforming pre-existing "Steps to Lawn". They are located on the Northwest side of the house. Details of the steps:
    - i. Setback from the High Water mark: 42'
    - ii. Setback from the West lot line: 4' (infringement of side lot line setbacks)
    - iii. Setback from the East lot line: (N/A located on West side of property)
    - iv. Dimensions: 3'8"x 13'5", Area: 49.58 square feet

#### 2. Proposal:

- a. We would like to clean up the lakeshore by relocating the existing deck and attaching it as a new structure to the North side of the house. Along with the deck relocation, we would like to relocate the "Steps to Lawn" as a new structure attached to and servicing the deck. Their new locations would still be non-conforming, but this proposal lessens the severity of the non-conformance. Details of the deck area (deck and steps) in the new location:
  - i. Setback from High Water mark: 35'7" (moving the deck area from 8' from the High Water mark to 35'7" making it 27'7' further away from the High Water mark, a significant improvement)
  - ii. Setback from the West lot line: 10' (the deck and steps would be relocated out of the West side lot line setback area making the deck and steps compliant with side lot line code, another significant improvement)
  - iii. Setback from the East lot line: 12' 4" (keeping deck and steps out of the East lot line setback area)
  - iv. Dimensions: Irregular, Area: 292 square feet (basically the same size as existing deck and steps combined (242.64+49.58=292.22))
- b. The drawing at the top of the next page shows the specifics of the new deck and steps location in more detail.

#### Relocated Deck and Steps Plan

<u>Variance Form #8 – Using the criteria from the City Code for a variance (see last page), explain why a variance is justified in this situation and describe what "Practical Difficulties" exist:</u>

#### 1. SUBD 1 A.:

- Harmony with the General Purposes and Intent of the Ordinance:

  We believe the relocation of two non-conforming pre-existing structures (deck and "Steps to Lawn") are in harmony with the general purposes and intent of the ordinance. While the deck and steps new location would still be non-conforming, it would significantly lessen the severity of the non-conformance by moving the new combined structure further away from the High Water mark from 8' to about 35'7" an improvement of 27'7" AND, it would eliminate their side lot line setback infringements. In addition, the old rickety structure at the water's edge (the deck) would no longer be an eye-sore from the lake as it would be relocated as a new structure away from the lake. The relocations would be preferred to their current locations and would, therefore, better harmonize with the purpose and intent of the ordinance.
- ii. Consistent with the Comprehensive Plan:
   Per the Comprehensive Plan, maintaining the historical perspective of the community is extremely important. Our house was built in 1910, 11 years before Birchwood was incorporated as a village and later as a city. The house and its

location on the lot embodies that historical perspective as it was originally built as a lake home and has a deck on the lakeside - a quintessential feature of the house. The first bullet point under Community Goals states; "Maintain the existing character of the community through preservation of the single-family residential land use and neighborhood patterns". We believe a deck area on the lakeside of the house is important; it promotes the historical perspective of why the house was initially built - lake enjoyment.

#### 2. SUBD 2 (Practical Difficulties):

- i. Our lot is undersized and the house's original non-conforming pre-existing location on the lot offers no space for a compliant lakeside deck.
- ii. In order to have a lakeside deck area, there are two options:
  - Option 1: "Keep, maintain, and perform incidental alterations" to the current deck and "Steps to Lawn" in their current locations. This option would not make any improvement toward code compliance. OR
  - Option 2: Relocate the deck to clean up the shoreline and bring it into significantly better compliance with the High Water mark setback requirement. In addition, relocate the "Steps to Lawn" and add them as part of the deck structure. The deck and steps relocations would eliminate their side setback infringements and bring their side lot line setbacks into compliance.

We think Option 2 (deck and steps relocation) is the better option for us, our neighbors, and the City of Birchwood Village.

- iii. The impervious surface will not change see commentary under Variance Form #9 in the next section.
- iv. Granting the variance will not impair an adequate supply of light and air to adjacent properties. We feel property values of neighboring properties would only benefit from a cleaned-up lakeshore and a well-constructed deck area that would replace poorly located structures.

<u>Variance Form #9 - Describe any measures the Applicant is proposing to undertake if the variance is granted, including measures to decrease the amount of water draining from the property:</u>

1. Deck and stairs in their new locations will be built compliant to Code 300.020 (23) Exception 1 ("open joints ¼ inch wide per 8 inch wide board"). As such, impervious surface would not be increased.

### <u>Variance Form #10 – Describe any alternatives the Applicant considered (if any) that do not require a variance:</u>

As mentioned previously, there are two options for the deck and stairs. See #ii under practical difficulties.

#### Variance Form #15 - Please attach the following:

Legal Description of the property:

#### **LEGAL DESCRIPTION**

All of Lot A, Block 3, of LAKEWOOD PARK FIRST DIVISION, according to the plat thereof on file and of record in the office of the Register of Deeds in and for Washington County, Minnesota, except the Southeasterly 100 feet of Lot 1 of BIRCHWOOD being that part thereof lying West of a line drawn parallel to the West line of said Lot 1 and 55 feet Easterly thereof, together with that portion of Wildwood Avenue vacated by Court Decree filed in Book 64 of Deeds, page 151, including any portion of any streeet or alley adjacent thereto, vacated or to be vacated.

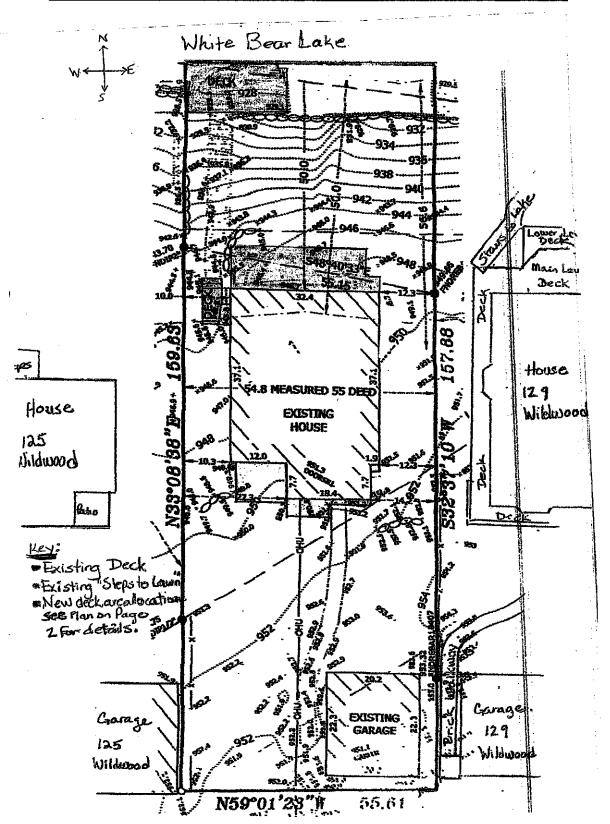

AND

Westerly 51.12 feet of Lot A, Block 3, LAKEWOOD PARK FIRST DIVISION.

Plot Plan drawn to scale showing existing and proposed new and changed structures on the lot. See Page 5 of this Exhibit.

Also show existing structures on adjacent lots. See Page 5 of this Exhibit.

Subject: Variance 2023-02-VB (Deck Variance - 127 Wildwood Ave.)

Margaret, Becky and Alan,

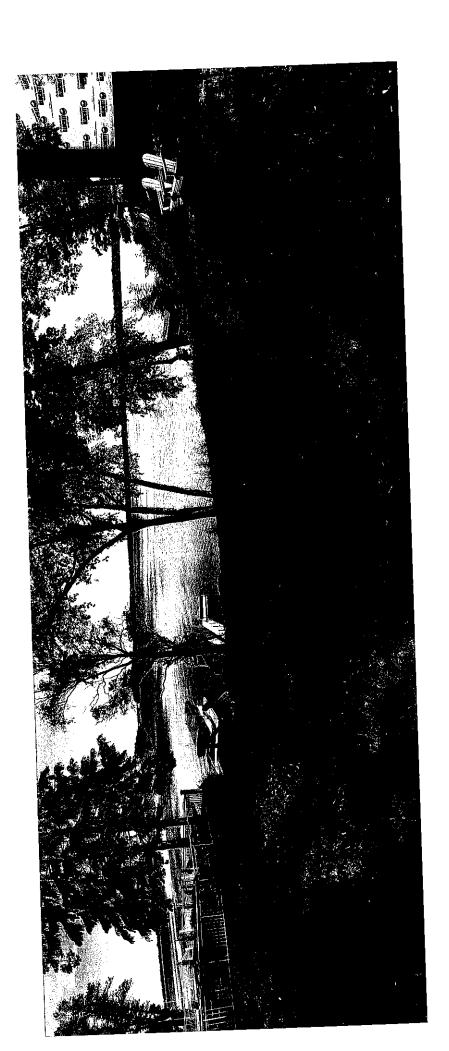

Without waving or in any way limiting our rights under Minnesota Statute Section 15.99 or any other applicable laws, please consider this request to have our variance application reviewed by the Birchwood Village City Council at the next meeting on July 11, 2023. As the City Council is aware, we believe our variance application has been approved as a matter of law given the City of Birchwood Village did not timely request an extension of time in which to consider the application. That said, in the interests of maintaining goodwill and harmony in the community, which is of utmost importance to us, we are willing to appear on a conditional and courtesy basis before the City Council again to answer any additional questions and provide such additional information as shall be reasonably necessary to address any remaining issues or questions the City Council may have. To that end, we would find it immensely helpful if we could receive in writing/email any questions the City Council has in advance of the next meeting so that we may respond as efficiently and completely as possible under the circumstances.

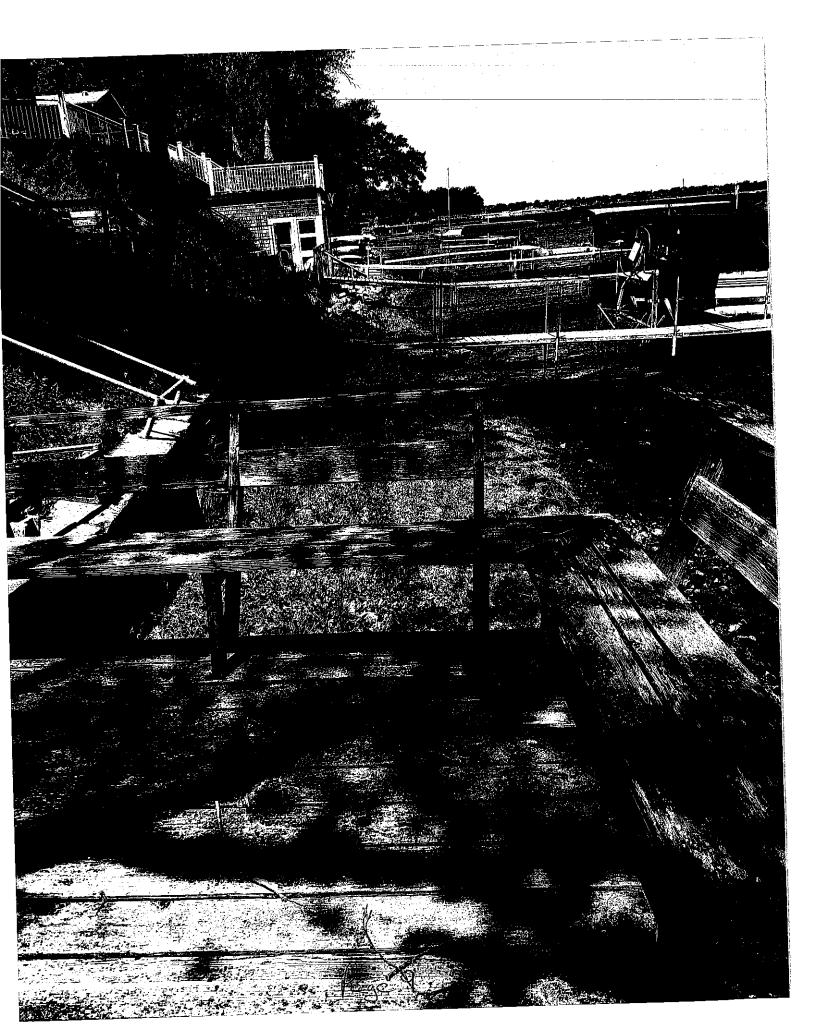

It is our sincere hope to maintain a good and amicable relationship with the City of Birchwood Village and the community at large, and further to avoid anything of an adversarial nature with all concerned. We thank you for your time and consideration. Sue and Al Reiss

I don't have any specific things that came out of the meeting. If action remains to be taken on the variance, it would be good to have not only their deck plans but some sort of sight-line exhibit or pictures from the neighboring properties to see what exactly they are or will be looking at, so the council can react to the neighbors' claims with some information in hand. This will also put to scale the house on the other side (that is encroaching the lake-side setback) of the applicants'.

Thanks.

Ben

Please see the email below from Sue and Al Reiss.

Marcus and Ben - We will need some details on what additional information is needed for this. The council had some technical questions however I could use some guidance in informing the Reiss's exactly what information and documentation is necessary for them to provide. I am wondering if the two of you could discuss this because Ben you are familiar with it and Marcus you were at the meeting yesterday. Please let me know if that works for you and then when you could provide that list to me so I can inform the Reiss's. Let me know if that works for you. Thanks:

Hi Sue and Al,

I apologize for the delay in our response. Our City Administrator, Rebecca Kellen, has been out of the office since June 17<sup>th</sup>, so I am forwarding the information promised after the City Council meeting of June 13<sup>th</sup>, 2023.

Both our Planner Ben Wikstrom, and our City Planner Marcus Johnson, reviewed your information. They asked for additional details that they believe would be helpful for us, and the reacting neighbors.

Here's what information is needed to evaluate your request to add a deck plan to your property.

Deck Plans

Include with those plans a visual that provides a sight-line exhibit and/or pictures from the neighboring properties.

Purpose will be to react to the neighbors' claims. Re: Help all, to visually put to scale the houses on each side of your property, along with helping all to visually see the house on the other side that is encroaching the lake-side setback.

If we may provide anything further, or if you have any questions, please reach out to me.

Have a happy and safe holiday.

Respectfully,

#### Therese

#### RESOLUTION NO. 2023-\_\_

### CITY OF BIRCHWOOD VILLAGE WASHINGTON COUNTY, MINNESOTA

A RESOLUTION APPROVING SUMMARY PUBLICATION OF ORDINANCE NO. 2023-05-05: AN ORDINANCE AMENDING THE UTILITY AVAILABILITY FEES IN THE CITY FEE SCHEDULE, AMENDING SECTIONS 201.060 AND 201.070 OF ORDINANCE NO. 201, TITLED "CITY WATER SYSTEMS" AND SECTION 202.070 OF ORDINANCE NO. 202, TITLED "CITY PLUMBING AND SEWAGE SYSTEM"

WHEREAS the City of Birchwood Village is a political subdivision organized and existing under the laws of the State of Minnesota; and

WHEREAS the City has adopted Ordinance No. 2023-05-05 which amends the sections 201 and 202 of the city code regarding water and sewer connections; and

WHEREAS the new ordinance is lengthy and would be costly for the City to publish in its entirety as required by law for the adoption of an ordinance.

**NOW THEREFORE,** BE IT RESOLVED BY THE CITY COUNCIL OF CITY OF BIRCHWOOD VILLAGE, MINNESOTA AS FOLLOWS:

Because the terms of Ordinance 2023-05-05 are lengthy, the City may publish the attached summary of the Ordinance as allowed by statute, and need not publish the entire ordinance. The attached summary clearly informs the public of the intent and effect of the Ordinance. Summary publication has been approved by at least a four fifths vote of the City Council.

Passed by the the City Council of City of Birchwood Village, Minnesota this 11<sup>th</sup> day of July, 2023.

#### INTRODUCTION

#### A. General Information

The City of Birchwood is requesting a proposal from qualified firms of certified public accountants to audit its financial statements for the fiscal year ending December 31, 2023. This audit is to be performed in accordance with U.S. generally accepted auditing standards, the standards set forth for financial audits in the General Accounting Office's (GAO) Government Auditing Standards (July 2007), the provisions of the federal Single Audit Act of 1984 as amended, and U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non-profit Organizations, as applicable.

There is no expressed or implied obligation for the City of Birchwood to reimburse responding firms for any expenses incurred in preparing proposals in response to this request.

To be considered, one copy of the proposal must be received by Rebecca Kellen, City Administrator, rebecca.kellen@cityofbirchwood.com) 207 Birchwood Avenue, Birchwood, MN 55110 by 4:00 P.M. on September 5, 2023. The City of Birchwood reserves the right to reject any or all proposals submitted.

Proposals submitted may be evaluated by City Staff and City Council.

During the evaluation process, the City reserves the right, where it may serve the City's best interest, to request additional information or clarifications from responding firms, or to allow corrections of errors or omissions.

The City reserves the right to retain all proposals submitted and to use any ideas in a proposal regardless of whether that proposal is selected. Submission of a proposal indicates acceptance by the firm of the conditions contained in this request for proposals, unless clearly and specifically noted in the proposal submitted and confirmed in the engagement letter between the City of Birchwood and the firm selected.

It is anticipated that the selection of a firm will be completed by October 10, 2023. Following the notification of the selected firm, it is expected a Letter of Engagement will be executed by November 10, 2023.

#### B. Term of Engagement

A one-time contract for audit is contemplated.

#### C. Subcontracting

Following the award of the audit contract, no subcontracting will be allowed without the express prior written consent of the City of Birchwood.

#### II. NATURE OF SERVICES REQUIRED

#### A. General

The City of Birchwood is soliciting the services of qualified firms of certified public accountants to audit its financial statements for the fiscal years ending December 31, 2023, The audit is to be performed in accordance with the provisions contained in this request for proposals.

#### B. Scope of Work to be Performed

The City of Birchwood desires the auditor to express an opinion on the fair presentation of its basic financial statements in conformity with generally accepted accounting principles. The auditor shall also be responsible for performing certain limited procedures involving required supplementary information required by the Governmental Accounting Standards Board as mandated by generally accepted auditing standards.

The auditor is not required to audit the schedule of expenditures of federal awards if such audit is not triggered by the threshold of funding received by the City.

#### C. Auditing Standards to Be Followed

To meet the requirements of this request for proposals, the audit shall be performed in accordance with:

- The auditing standards generally accepted in the United States of America.
- The standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, if applicable.
- The provisions of Title 2 U.S, Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).
- The provisions of U.S. Office of Management and Budget (OMB) Circular A-133.
- The provisions of the Minnesota Legal Compliance Audit Guide for Local Government.

#### D. Reports to be Issued

Following the completion of the audit of the fiscal year's financial statements, the auditor shall Issue:

- 1. A report on the fair presentation of the financial statements in conformity with generally accepted accounting principles.
- 2. A report on the compliance and internal control over financial reporting based on an audit of the financial statements.
- 3. A report on compliance with applicable laws and regulations.

In the required report(s) on internal controls, the auditor shall communicate any control deficiencies found during the audit. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies in internal control that is less than a material weakness, yet important enough to merit attention by those charged with governance.

The reports on compliance shall include <u>all</u> instances of noncompliance.

<u>Irregularities and illegal acts.</u> Auditors shall be required to make an immediate, <u>written</u> report of all irregularities and illegal acts or indications of illegal acts of which they become aware to the following parties:

The City Council.

E. Reporting to those charged with governance

Auditors shall assure themselves that the City of Birchwood's governing body is informed of each of the following:

- 1. The auditor's responsibility under generally accepted auditing standards
- 2. Planned scope and timing of the audit
- 3. Significant findings from the audit

#### F. Special Considerations

1. The City of Birchwood may prepare one or more official statements in connection with the sale of debt securities which will contain the basic financial statements and the auditor's report thereon. The auditor shall be required, if requested by the underwriter, to issue a "consent and citation of expertise" as the auditor and any necessary "comfort letters."

#### G. Working Paper Retention and Access to Working Papers

All working papers and reports must be retained, at the auditor's expense, for a minimum of seven (7) years, unless the firm is notified in writing by the City of Birchwood of the need to extend the retention period. The auditor will be required to make working papers available, upon Request.

In addition, the firm shall respond to the reasonable inquiries of successor auditors and allow successor auditors to review working papers relating to matters of continuing accounting significance.

#### III. DESCRIPTION OF THE GOVERNMENT

A. Major Contact Person: The auditor's principal contact with the City will be Rebecca Kellen, Finance Deputy Clerk ((651) 426-3403), rebecca.kellen@cityofbirchwood.com or a designated representative, who will coordinate the assistance to be provided by the City of Birchwood to the auditor.

#### B. Background Information:

- ∉ The City of Birchwood is located in Washington County and serves an area of 0.34 square miles with a population of 863.
- ∉ The City of Birchwood's fiscal year begins on January 1 and ends on December 31.
- ⊈ The City is a Plan A form of government with an elected Mayor and four elected City
  Council members.
- The City provides the usual services to its citizens which include public safety; public works; public health; culture; recreation, and community development.
- More detailed information on the government and its finances can be found on the city's website at: https://www.cityofbirchwood.com/audits

#### C. Budgetary Basis of Accounting

The City prepares its budgets on a basis consistent with generally accepted accounting principles.

#### D. Federal and State Financial Assistance

During the fiscal year to be audited, the City does not expect to have expended in excess of \$750,000 of Federal assistance from various programs.

#### E. Magnitude of Finance Operations

The finance department is headed by Mary Cahill, Treasurer. There are two full-time employees. The principal functions performed, and the number of employees assigned to each area, are as follows:

<u>Function</u>	Number of Full Time Employees
City Administrator	1
Deputy City Administrator	1

#### IV. TIME REQUIREMENTS

#### A. Proposal Calendar:

Request for proposal issued

Due date for proposals

September 5, 2023, 4:00 p.m.

City Council Approval

October 10,2023

#### B. Notification and Contract Dates:

Selected firm notified

October 17, 2023

**Engagement Letter executed** 

October 24, 2023

#### C. Schedule for Audits

The City will have all records ready for audit and all management personnel available to meet with the firm's personnel at a date that is mutually convenient. Each of the following should be completed by the auditor no later than the dates indicated.

- 1. Interim Work: The auditor shall complete interim work by the end of January.
- 2. Detailed Audit Plan: The auditor shall provide by the end of January, to the City, both a detailed audit plan, and a list of all schedules to be prepared by the City.
- 3. Fieldwork: The auditor shall complete all fieldwork by the end of April.
- 4. Draft Reports: The auditor shall have reviewed drafts of the audit report by the middle to end of May.

#### D. Date Final Report is Due

The selected firm shall prepare draft financial statements, notes and required supplementary schedules by the middle of May. The auditor shall provide all recommendations, revisions, and suggestions for improvement to the City by the end of May. The final auditor reports and five signed copies (and 1 copy in Adobe pdf format) should be delivered to the Finance Deputy Clerk by the beginning of June.

#### V. ASSISTANCE TO BE PROVIDED TO THE AUDITOR & REPORT PREPARATION

#### A. Administration Department

The Finance Deputy Clerk and responsible personnel will be available during the audit to assist the firm by providing information, documentation, and explanations. The preparation of confirmations will be the responsibility of the City.

B. Work Area, Telephones, Photocopying, and Wi-Fi.

The City will provide the auditor with reasonable work space, desks, and chairs. The auditor will also be provided with access to telephone lines photocopying facilities and Wi-Fi

#### C. Report Preparation

Report preparation, editing, and printing shall be either the responsibility of the City or the auditor.

#### VI. PROPOSAL REQUIREMENTS

#### A. General Requirements

- 1. Time will be made available to Audit Firms for an on-site visit should one be desired.
- 2. Inquiries: Inquiries concerning the request for proposals and the subject of the request for proposals must be made to:

Rebecca Kellen, City Administrator 207 Birchwood Avenue

Birchwood, MN 55110

Email: rebecca.kellen@cityofbirchwood.com

Phone: 651-426-3403 www.cityofbirchwood.com

- 3. Submission of Proposals: The following material is required to be received by September 2, 2022 for a proposing firm to be considered:
  - A master copy (so marked) of a Technical Proposal and two copies to include the following:
    - i. Title Page: Title page showing the request for proposals subject; the firm's name; the name, address, and telephone number of the contact person; and the date of the proposal.
    - ii. Table of Contents
    - iii. Transmittal Letter: A signed letter of transmittal briefly stating the proposer's understanding of the work to be done, the commitment to perform the work within the time period, a statement why the firm believes it to be best qualified to perform the engagement and a statement that the proposal is a firm and irrevocable offer for 60 days.
    - iv. Detailed Proposal: The detailed proposal should follow the order set forth in Section VI B of this request for proposals.
    - v. Proposers should send the completed proposal to the following address or email address: <a href="mailto:rebecca.kellen@cityofbirchwood.com">rebecca.kellen@cityofbirchwood.com</a>

City of Birchwood 207 Birchwood Avenue Birchwood, MN 55110

#### B. Proposal

1. General Requirements

The purpose of the Proposal is to demonstrate the qualifications, competence and capacity of the firms seeking to undertake an independent audit of the City of Birchwood in conformity with the requirements of this request for proposals. As such, the substance of proposals will carry more weight than their form or manner of presentation. The Technical Proposal should demonstrate the qualifications of the firm and of the particular

staff to be assigned to this engagement. It should also specify an audit approach that will meet the request for proposals requirements.

The Proposal should address all the points outlined in the request for proposals. The Proposal should be prepared simply and economically, providing a straightforward, concise description of the proposer's capabilities to satisfy the requirements of the request for proposals. While additional data may be presented, the following subjects, items No.2 through 10, must be included. They represent the criteria against which the proposal will be evaluated.

#### 2. Independence

The firm should provide an affirmative statement that is independent of the City as defined by generally accepted auditing standards/the U.S. General Accounting Office's Government Auditing Standards (July 2007). The firms should also list and describe the firm's professional relationship involving the City or any of its agencies for the past five (5) years, together with a relative to performing the proposed audit. In addition, the firm shall give the City written notice of any professional relationships entered into during the period of this agreement.

#### 3. License to Practice in Minnesota

An affirmative statement should be included that the firm and all assigned key professional staff are properly registered and licensed to practice in Minnesota.

#### 4. Firm Qualifications and Experience

The proposer should state the size of the firm, the size of the firm's governmental audit staff, the location of the office from which the work on this engagement is to be performed, and the number and nature of the professional staff to be employed in this engagement on a full-time basis and the number and nature of the staff to be so employed on a part-time basis. If the proposer is a joint venture or consortium, the qualifications of each firm comprising the joint venture or consortium should be separately identified and the firm that is to serve as the principal auditor should be noted, if applicable. The firm is also required to submit a copy of the report on its most recent external quality control review, with a statement whether that quality control review included a review of specific government engagements. The firm shall also provide information on the results of any federal or state desk reviews or field reviews of its audits during the past three (3) years. In addition, the firm shall provide information on the circumstances and status of any disciplinary action taken or pending against the firm during the past three (3) years with state regulatory bodies or professional organizations.

#### 5. Partner, Supervisory and Staff Qualifications, and Experience

Identify the principal supervisory and management staff, including engagement partners, managers, other supervisors and specialists, who would be assigned to the engagement. Indicate whether each such person is registered or licensed to practice as a certified public accountant in Minnesota. Provide information on the government auditing experience of each person, including information on relevant continuing professional education for the past three (3) years and membership in professional organizations relevant to the performance of this audit.

Provide as much information as possible regarding the number, qualifications, experience and training, including relevant continuing professional education, of the specific staff to be assigned to this engagement. Indicate how the quality of staff over the term of the agreement will be assured.

Engagement partners, managers, or other assigned staff may be changed if those personnel leave the firm, are promoted, or are assigned to another office; provided that the replacements have substantially the same or better qualifications or experience. The City retains the right to approve or reject replacements.

#### 6. Similar Engagements with Other Government Entities

For the firm's office that will be assigned responsibility for the audit, list the most significant engagements (maximum - 5) performed in the last five years that are similar to the engagement described in this request for proposal. These engagements should be ranked on the basis of total staff hours. Indicate the scope of work, date; engagement partners, total hours, and the name and telephone number of the principal client contact.

#### 7. Specific Audit Approach

The proposal should set forth a work plan, including an explanation of the audit methodology to be followed, to perform the services required in Section II of this request for proposal. In developing the work plan, reference should be made to such sources of information as the City's budget and related materials, organizational charts, manuals and programs, and financial and other management information systems.

Proposers will be required to provide the following information on their audit approach:

- a. Proposed segmentation of the engagement
- b. Level of staff and number of hours to be assigned to each proposed segment of the engagement
- c. Sample size and the extent to which statistical sampling is to be used in the engagement

#### 8. Identification of Anticipated Potential Audit Problems

The proposal should identify and describe any anticipated potential audit problems, the firm's approach to resolving these problems and any special assistance that will be requested from the City.

#### C. Dollar Cost Bid

#### 1. Total All-Inclusive Maximum Price

The dollar cost bid should contain all pricing information relative to performing the audit engagement as described in this request for proposal. The total all-inclusive maximum price to be bid is to contain all direct and indirect costs including all out-of-pocket expenses.

The City will not be responsible for expenses incurred in preparing and submitting the proposal. Such costs should not be included in the proposal.

- Rates by partner, manager, supervisory and staff level times and hours anticipated for each. The dollar cost bid should include a schedule of professional fees and expenses, presented in the format provided in Attachment B, that supports the total all-inclusive maximum price.
- 3. All estimated out-of-pocket expenses to be reimbursed should be presented in the format provided in Attachment B. All expense reimbursements will be charged against the total all-inclusive maximum price submitted by the firm.

#### 4. Rates for Additional Professional Services

If it should become necessary for the City to request the auditor to render any additional services to either supplement the services requested in this RFP or to perform additional work as a result of the specific recommendations included in any report issued on this engagement, then such additional work shall be performed only if set forth in an addendum to the contract between the City and the firm. Any such additional work agreed to between the City and the firm shall be performed at the same rates set forth in the schedule of fees and expenses included in the dollar cost bid.

#### 5. Manner of Payment

Progress payments will be made on the basis of hours of work completed during the course of the engagement and out-of-pocket expenses incurred in accordance with the firm's dollar cost bid proposal. Interim billing shall cover a period of not less than a calendar month.

#### VII. EVALUATION PROCEDURES

Proposals submitted may be evaluated by Staff and City Council. The City Nowthen reserves the right to retain all proposals submitted and use any idea in a proposal regardless of whether that proposal is selected.

Proposals will be evaluated using three sets of criteria. Firms meeting the mandatory criteria will have their proposals evaluated and scored for both technical qualifications and price. The following represent the principal selection criteria which will be considered during the evaluation process.

### 1. Mandatory Elements

- a. The audit firm is independent and licensed to practice in Minnesota.
- b. The firm has no conflict of interest with regard to any other work performed by the firm for the City
- c. The firm adheres to the instructions in this request for proposal on preparing and submitting the proposal
- d. The firm submits a copy of its last external quality control review report and the firm has a record of quality audit work

### 2. Technical Qualifications

- a. Expertise and Experience
  - i. The firm's past experience and performance on comparable government engagements
  - ii. The quality of the firm's professional personnel to be assigned to the engagement and the quality of the firm's management support personnel to be available for technical consultation

### b. Audit Approach

- Adequacy of a proposed staffing plan for various segments of the engagement
- ii. Adequacy of sampling techniques
- iii. Adequacy of analytical procedures
- iv. Price: Please complete Attachment B

### 3. Price

#### C. Oral Presentations

During the evaluation process the City may, at its discretion, request anyone or all firms to make oral presentations. Such presentations will provide firms with an opportunity to answer any questions the City may have on a firm's proposal.

#### C. Final Selection

The City Clerk/Treasurer may recommend to the City Council the appointment of a CPA firm judged to be most responsive and responsible proposer for the auditing services requested. The final decision with respect to the appointment will be made by the City Council.

# D. Right to Reject Proposals

Submission of a proposal indicates acceptance by the firm of the conditions contained in this request for proposal unless clearly and specifically noted in the proposal submitted and confirmed in the engagement letter between the City and the firm selected. The City of Birchwood reserves the right, without prejudice, to reject any or all proposals.

# E. Current Audit and Accounting Service Hours

Proposals should include major hours of work performed for the audit. For additional information about hours and services to be performed, please contact the city clerk/treasurer.

### <u>ATTACHMENT A</u>

### **PROPOSER WARRANTIES**

- A. Proposer warrants that it is willing and able to comply with State of Minnesota laws with respect to foreign (non-state) corporations.
- B. Proposer warrants that it is willing and able to obtain an errors and omissions insurance policy providing a prudent amount of coverage for the willful or negligent acts, or omissions of any officers, employees or agents thereof.
- C. Proposer warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the City.
- D. Proposer warrants that all information provided by it in connection with this proposal is true and accurate.--

<b>ORDINANCE</b>	NO.
------------------	-----

AN ORDINANCE AMENDING ORDINANCES NO. 301 TITLED "ZONING CODE: GENERAL PROVISIONS," NO. 302 TITLED "ZONING CODE: REQUIREMENTS AND PERFORMANCE STANDARDS," AND NO. 306 TITLED "ZONING CODE: CONDITIONAL USE PERMITS"

The City Council of The City of Birchwood Village, Minnesota ordains:

Section 1. Findings and Purpose.

Solar installations have become commonplace in surrounding areas, but shade in Birchwood has made our own solar development proceed more slowly. As Birchwood's high tree cover diminishes due to emerald ash borer, sunlight will fall more directly onto houses and garages. Moreover, the Metropolitan Land Use Plan in Minn. Stat. § 473.859 calls for "an element for protection and development of access to direct sunlight for solar energy systems"

A conditional use permit for rooftop solar systems no longer makes sense; these systems can be regulated administratively with building permits without direct planning commission or city council oversight. Ground mount systems have significant enough potential impacts, however, that more oversight may ensure that aesthetic concerns can be addressed.

Because Minn. Stat. § 462.358 Subd. 6 provides that "unusual hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems," we should allow variances.

Section 2. Ordinance No. 302 titled "Zoning Code: Requirements and Performance Standards" is amended to insert section 302.100, to read:

### 302.100. SOLAR ENERGY INSTALLATIONS

### 1. Definitions.

- a. <u>Building-integrated Solar Energy Systems</u>. A solar energy system that is an integral part of a principal or accessory building, rather than a separate mechanical device, replacing or substituting for an architectural or structural component of the building. Building-integrated systems include, but are not limited to, photovoltaic or hot water solar energy systems that are contained within roofing materials, windows, skylights, and awnings.
- b. <u>Grid-intertie Solar Energy System.</u> A photovoltaic solar energy system that is connected to an electric circuit served by an electric utility company.

- c. <u>Ground-mount</u>. A solar energy system mounted on a rack or pole that rests or is attached to the ground.
- d. <u>Photovoltaic System.</u> A solar energy system that converts solar energy directly into electricity
- e. <u>Roof-mount.</u> A solar energy system mounted on a rack that is fastened to or ballasted on a structure roof. Roof-mount systems are accessory to the principal use.
- f. <u>Solar Collector</u>. The panel or device in a solar energy system that collects solar radiant energy and transforms it into thermal, mechanical, chemical, or electrical energy. The collector does not include frames, supports, or mounting hardware.
- g. <u>Solar Energy System.</u> A device, array of devices, or structural design feature, the purpose of which is to provide for generation or storage of electricity from sunlight, or the collection, storage and distribution of solar energy for space heating or cooling, daylight for interior lighting, or water heating.
- 2. <u>Intent.</u> Solar energy is an abundant, renewable, and nonpolluting energy resource and its conversion to electricity or heat is beneficial. The intent of this ordinance is to:
  - a. preserve the health, safety and welfare of the community by promoting the safe, effective and efficient use of solar energy systems; and
  - b. promote sustainable building design and management practices to serve current and future generations; and
  - c. implement the solar resource protection element required under the Metropolitan Land Planning Act; and
  - d. reduce dependence on nonrenewable energy resources and decrease air and water pollution that results from the use of conventional energy sources; and
  - e. enhance the reliability and power quality of the power grid and make more efficient use of electric distribution infrastructure; and
  - f. maintain the aesthetic qualities of the City, minimize the visibility of solar systems from roads and shorelines, and reduce impact on neighboring properties.
- 3. <u>Height and Setback</u>. Solar energy systems must meet the following height and setback requirements:
  - a. Building- or roof-mounted solar energy systems shall not exceed the maximum allowed height. For purposes for height measurement, solar energy systems other than building-integrated systems shall not exceed two feet in height above the surface of the roof.

- b. Ground-mount solar energy systems shall not exceed six feet in height when oriented at maximum design tilt.
- c. Solar energy systems must meet the structure setback for the lot on which the system is located, except as allowed below.
- d. The collector surface and mounting devices for roof-mounted solar energy systems shall not extend beyond the exterior perimeter of the building on which the system is mounted or built, unless the collector and mounting system has been explicitly engineered to safely extend beyond the edge and setback standards are not violated. Exterior piping for solar hot water systems shall be allowed to extend beyond the perimeter of the building on a side-yard exposure. Solar collectors mounted on the sides of buildings and serving as awnings are considered to be building-integrated systems and may project as permitted in § 302,020 Subd. 1.
- e. Ground-mount solar energy systems may not extend into any setback when oriented at minimum design tilt, except as otherwise allowed for building mechanical systems.
- 4. <u>Visibility</u>. Solar energy systems shall be designed to minimize visual impacts from the public right-of-way, to the extent that doing so does not affect the cost or efficacy of the system. The following standards shall apply:
  - a. <u>Building Integrated Photovoltaic Systems.</u> Building integrated photovoltaic solar energy systems shall be allowed regardless of whether the system is visible from the public right-of-way, provided the building component in which the system is integrated meets all required setbacks and performance standards.
  - b. <u>Reflectors.</u> All solar energy systems using a reflector to enhance solar production shall not cause glare from the reflector affecting adjacent or nearby properties.

### 5. Ground Mount Systems.

- a. Lot Coverage. Ground-mount Solar Systems shall:
  - i. not exceed 50% of the building footprint of the principal structure in total collector area; and
  - ii. not count toward accessory structure limitations; and
  - iii. be exempt from impervious surface standards if the surface under the collector is not impervious surface.
- b. <u>Roof-mount infeasible</u>. Ground-mount systems shall be permitted on a lot only where the applicant shows that a roof-mount solar installation is infeasible.
- 6. <u>Plan Approval Required.</u> All solar energy system permit applications shall provide a site plan for review, including to-scale horizontal and vertical (elevation) drawings. The drawings must show the location of the system on the building or on the property for a ground-mount system, including the property lines.

- 7. Compliance with Codes and Standards.
  - a. Electric solar energy system components must have a UL or equivalent listing and solar hot water systems must have an SRCC rating.
  - b. All solar energy installations shall be consistent with the State of Minnesota Building Code and shall meet approval of local officials.
  - c. All photovoltaic systems shall comply with the Minnesota State Electric Code.
  - d. Solar thermal systems shall comply with applicable Minnesota State Plumbing Code requirements and with HVAC-related requirements of the Energy Code.
  - e. Grid-intertie solar energy systems shall conform to all electric utility requirements.
- 8. <u>Utility Notification</u>. The electric utility shall be notified in advance of all grid-intertie solar energy system installations.
- 9. <u>Permits Required.</u> All solar installations require a building permit.
- 10. Exception from Conditional Use Permit. A conditional use permit is required in additional to all other permits required, except for:
  - a. building-integrated installations; and
  - b. ground-mount solar installations which exceed 30% of the total footprint of the principle structure in total building area; and
  - c. ground-mount solar installations which receive (as input) in sunlight fewer kilowatt hours per year than a roof-mount solar installation that would not require a conditional use permit; and

d.

roof-mount solar installations no more than ten inches above the roof, with each panel within 5 degrees of the pitch of the roof and within the bounds of the roof surface; and

- 11. <u>Variances.</u> An applicant with inadequate access to direct sunlight for solar energy systems or another practical difficulty under the terms of § 302.100 may apply for a variance. The variance application shall meet the requirements for plan approval and shall also demonstrate why the requirements of the code cannot be met without practical difficulty.
- **Section 3.** Section 306.060 titled "Solar Energy Systems" of Ordinance No. 306 titled "ZONING CODE: CONDITIONAL USE PERMITS" is repealed.
- **Section 4.** Section 301.070 titled "Conditional Uses" of Ordinance No. 301 titled "ZONING CODE: GENERAL PROVISIONS" is amended to read:
- 301.070. <u>CONDITIONAL USES</u>. Certain accessory uses permitted within the City have greater than usual chances to present safety hazards, impact on neighboring people and property, reduced aesthetics and nuisance situations. Because of these greater effects,

the City requires these uses to be covered under Conditional Use Permits. Applications for Conditional Use Permits must comply with all provisions of Section 306. CONDITIONAL USE PERMITS.

- 1. A Conditional Use Permit shall be required for the following projects:
  - a. Any land disturbance activity where the slope is toward a lake, pond, wetland, or watercourse leading to such waters, and the alteration is closer to such waters than the structure setback requirement. See Note at end of Section 301.070.
  - b. Any land disturbance activity where such work involves an area greater than four hundred (400) square feet and/or more than fifty (50) cubic yards in volume. See Note at end of Section 301.070.
  - c. Any swimming pool with a capacity over three thousand (3000) gallons or with a depth of over three and one-half (3 1/2) feet of water.
  - d. Any tennis court.
  - e. Any solar energy system for which § 302.100 does not provide an exception.

NOTE: A separate Conditional Use Permit is not required for a land disturbance activity in conjunction with construction as part of a building permit as granted. However, as part of the Building Permit Application, the applicant shall provide information required pursuant to Section 306.030 and shall follow all provisions of Sections 302.050 <u>IMPERVIOUS SURFACES</u> and 302.055 LAND DISTURBANCE ACTIVITY STANDARDS.

Section 5. This ordinance becomes effective from and after its passage and publication.

Passed by the City Council of The City of Birc	hwood	Village	this	day	of	Month,	Year.
Mayor							•
Attested:							
City Clerk							

To: Birchwood City Council

From: Ryan Hankins Re: Solar Ordinance

July Remarks:

Actions:

Request publication of a public hearing notice for the second reading of this ordinance in August.

I revised the code somewhat to allow more flexibility on ground-mound systems. Ground-mount is allowed without a conditional use permit, if the installation is less than 30% of the area of the roof and receives more sunlight than an allowable rooftop system.

There was some discussion on the council about how much ground-mount should be allowed. As a compromise, I removed aesthetic restrictions, and allowed ground-mount without a conditional use permit if the system will receive the same amount of sunlight as a feasible rooftop system, and the ground-mount system is less than 30% of the footprint of the principle structure. Ground-mount of up to 50% is allowed with a conditional use permit.

If the council has little interest in aesthetic regulation, it is possible to remove the conditional use permit requirement entirely, and to issue building permits for all solar systems. In Birchwood, the requirements for a conditional use permit and variances are similar anyway.

For useful background, LMC has an excellent resource for those of us who are ready to go beyond food to learn the "permit pyramid" in Minnesota; Cities have a great deal of discretion in ordinances and plans, very little flexibility in the administration and issuance of building permits and a balance with conditional use permits and variances:

https://www.lmc.org/resources/zoning-decisions/

June remarks:

The planning commission reviewed the following with me at its May 25 meeting. In addition, Mike Kraemer provided valuable comments, and I have updated the proposed ordinance with all of those comments. I am grateful for that feedback.

ORDINANCE NO	)

AN ORDINANCE AMENDING ORDINANCES NO. 301 TITLED "ZONING CODE: GENERAL PROVISIONS," NO. 302 TITLED "ZONING CODE: REQUIREMENTS AND PERFORMANCE STANDARDS," AND NO. 306 TITLED "ZONING CODE: CONDITIONAL USE PERMITS"

The City Council of The City of Birchwood Village, Minnesota ordains:

Section 1. Findings and Purpose.

Solar installations have become commonplace in surrounding areas, but shade in Birchwood has made our own solar development proceed more slowly. As Birchwood's high tree cover diminishes due to emerald ash borer, sunlight will fall more directly onto houses and garages. Moreover, the Metropolitan Land Use Plan in Minn. Stat. § 473.859 calls for "an element for protection and development of access to direct sunlight for solar energy systems"

A conditional use permit for rooftop solar systems no longer makes sense, these systems can be regulated administratively with building permits without direct planning commission or city council oversight. Ground mount systems have significant enough potential impacts, however, that more oversight may ensure that aesthetic concerns can be addressed.

Because Minn. Stat. § 462.358 Subd. 6 provides that "unusual hardship includes, but is not limited to, inadequate access to direct sunlight for solar energy systems," we should allow variances.

Section 2. Ordinance No. 302 titled "Zoning Code: Requirements and Performance Standards" is amended to insert section 302.100, to read:

# 302,100. SOLAR ENERGY INSTALLATIONS

### 1. Definitions.

- a. <u>Building-integrated Solar Energy Systems.</u> A solar energy system that is an integral part of a principal or accessory building, rather than a separate mechanical device, replacing or substituting for an architectural or structural component of the building. Building-integrated systems include, but are not limited to, photovoltaic or hot water solar energy systems that are contained within roofing materials, windows, skylights, and awnings.
- b. <u>Grid-intertie Solar Energy System.</u> A photovoltaic solar energy system that is connected to an electric circuit served by an electric utility company.

- c. <u>Ground-mount.</u> A solar energy system mounted on a rack or pole that rests or is attached to the ground.
- d. <u>Photovoltaic System.</u> A solar energy system that converts solar energy directly into electricity
- e. <u>Roof-mount.</u> A solar energy system mounted on a rack that is fastened to or ballasted on a structure roof. Roof-mount systems are accessory to the principal use.
- f. <u>Solar Collector</u>. The panel or device in a solar energy system that collects solar radiant energy and transforms it into thermal, mechanical, chemical, or electrical energy. The collector does not include frames, supports, or mounting hardware.
- g. <u>Solar Energy System.</u> A device, array of devices, or structural design feature, the purpose of which is to provide for generation or storage of electricity from sunlight, or the collection, storage and distribution of solar energy for space heating or cooling, daylight for interior lighting, or water heating.
- 2. <u>Intent.</u> Solar energy is an abundant, renewable, and nonpolluting energy resource and its conversion to electricity or heat is beneficial. The intent of this ordinance is to:
  - a. preserve the health, safety and welfare of the community by promoting the safe, effective and efficient use of solar energy systems; and
  - b. promote sustainable building design and management practices to serve current and future generations; and
  - c. implement the solar resource protection element required under the Metropolitan Land Planning Act; and
  - d. reduce dependence on nonrenewable energy resources and decrease air and water pollution that results from the use of conventional energy sources; and
  - e. enhance the reliability and power quality of the power grid and make more efficient use of electric distribution infrastructure; and
  - f. maintain the aesthetic qualities of the City, minimize the visibility of solar systems from roads and shorelines, and reduce impact on neighboring properties.
- 3. <u>Height and Setback.</u> Solar energy systems must meet the following height and setback requirements:
  - a. Building- or roof-mounted solar energy systems shall not exceed the maximum allowed height. For purposes for height measurement, solar energy systems other than building-integrated systems shall not exceed two feet in height above the surface of the roof.

- b. Ground-mount solar energy systems shall not exceed six feet in height when oriented at maximum design tilt.
- c. Solar energy systems must meet the structure setback for the lot on which the system is located, except as allowed below.
- d. The collector surface and mounting devices for roof-mounted solar energy systems shall not extend beyond the exterior perimeter of the building on which the system is mounted or built, unless the collector and mounting system has been explicitly engineered to safely extend beyond the edge and setback standards are not violated. Exterior piping for solar hot water systems shall be allowed to extend beyond the perimeter of the building on a side-yard exposure. Solar collectors mounted on the sides of buildings and serving as awnings are considered to be building-integrated systems and may project as permitted in § 302.020 Subd. 1.
- e. Ground-mount solar energy systems may not extend into any setback when oriented at minimum design tilt, except as otherwise allowed for building mechanical systems.
- 4. <u>Visibility</u>. Solar energy systems shall be designed to minimize visual impacts from the public right-of-way, to the extent that doing so does not affect the cost or efficacy of the system. The following standards shall apply:
  - a. <u>Building Integrated Photovoltaic Systems</u>. Building integrated photovoltaic solar energy systems shall be allowed regardless of whether the system is visible from the public right-of-way, provided the building component in which the system is integrated meets all required setbacks and performance standards.
  - b. <u>Reflectors</u>. All solar energy systems using a reflector to enhance solar production shall not cause glare from the reflector affecting adjacent or nearby properties.

### 5. Ground Mount Systems.

- a. Lot Coverage. Ground-mount Solar Systems shall:
  - i. not exceed 50% of the building footprint of the principal structure in total collector area; and
  - ii. not count toward accessory structure limitations; and
  - iii. be exempt from impervious surface standards if the surface under the collector is not impervious surface.
- b. Roof-mount infeasible. Ground-mount systems shall be permitted on a lot only where the applicant shows that a roof-mount solar installation is infeasible.
- 6. <u>Plan Approval Required.</u> All solar energy system permit applications shall provide a site plan for review, including to-scale horizontal and vertical (elevation) drawings. The drawings must show the location of the system on the building or on the property for a ground-mount system, including the property lines.

- 7. Compliance with Codes and Standards.
  - a. Electric solar energy system components must have a UL or equivalent listing and solar hot water systems must have an SRCC rating.
  - b. All solar energy installations shall be consistent with the State of Minnesota Building Code and shall meet approval of local officials.
  - c. All photovoltaic systems shall comply with the Minnesota State Electric Code.
  - d. Solar thermal systems shall comply with applicable Minnesota State Plumbing Code requirements and with HVAC-related requirements of the Energy Code.
  - e. Grid-intertie solar energy systems shall conform to all electric utility requirements.
- 8. <u>Utility Notification.</u> The electric utility shall be notified in advance of all grid-intertie solar energy system installations.
- 9. Permits Required. All solar installations require a building permit.
- 10. Exception from Conditional Use Permit. A conditional use permit is required in additional to all other permits required, except for:
  - a. building-integrated installations; and
  - b. ground-mount solar installations which exceed 30% of the total footprint of the principle structure in total building area; and
  - c. ground-mount solar installations which receive (as input) in sunlight fewer kilowatt hours per year than a roof-mount solar installation that would not require a conditional use permit; and

d.

roof-mount solar installations no more than ten inches above the roof, with each panel within 5 degrees of the pitch of the roof and within the bounds of the roof surface; and

- 11. <u>Variances.</u> An applicant with inadequate access to direct sunlight for solar energy systems or another practical difficulty under the terms of § 302.100 may apply for a variance. The variance application shall meet the requirements for plan approval and shall also demonstrate why the requirements of the code cannot be met without practical difficulty.
- **Section 3.** Section 306.060 titled "Solar Energy Systems" of Ordinance No. 306 titled "ZONING CODE: CONDITIONAL USE PERMITS" is repealed.
- **Section 4.** Section 301.070 titled "Conditional Uses" of Ordinance No. 301 titled "ZONING CODE: GENERAL PROVISIONS" is amended to read:
- 301.070. <u>CONDITIONAL USES</u>. Certain accessory uses permitted within the City have greater than usual chances to present safety hazards, impact on neighboring people and property, reduced aesthetics and nuisance situations. Because of these greater effects,

the City requires these uses to be covered under Conditional Use Permits. Applications for Conditional Use Permits must comply with all provisions of Section 306. CONDITIONAL USE PERMITS.

- 1. A Conditional Use Permit shall be required for the following projects:
  - a. Any land disturbance activity where the slope is toward a lake, pond, wetland, or watercourse leading to such waters, and the alteration is closer to such waters than the structure setback requirement. See Note at end of Section 301.070.
  - b. Any land disturbance activity where such work involves an area greater than four hundred (400) square feet and/or more than fifty (50) cubic yards in volume. See Note at end of Section 301.070.
  - c. Any swimming pool with a capacity over three thousand (3000) gallons or with a depth of over three and one-half (3 1/2) feet of water.
  - d. Any tennis court.
  - e. Any solar energy system for which § 302.100 does not provide an exception.

NOTE: A separate Conditional Use Permit is not required for a land disturbance activity in conjunction with construction as part of a building permit as granted. However, as part of the Building Permit Application, the applicant shall provide information required pursuant to Section 306.030 and shall follow all provisions of Sections 302.050 <u>IMPERVIOUS SURFACES</u> and 302.055 LAND DISTURBANCE ACTIVITY STANDARDS.

Section 5. This ordinance becomes effective from and after its passage and publication.

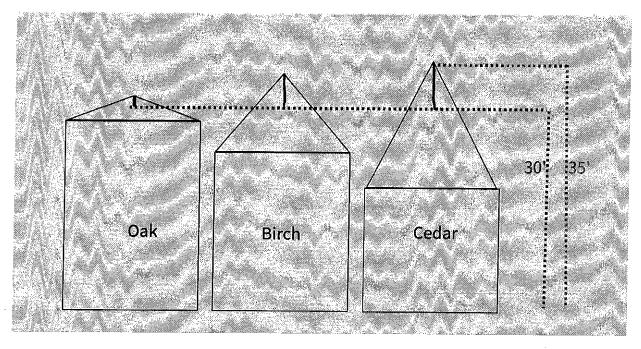

Passed by the City Council of The City of Birchwood	l Village	this	4.9	day	of	Monta,	Y car.
Mayor							
Attested:							
City Clerk							

To: Birchwood City Council

From: Ryan Hankins

Please see a discussion below and in the findings and purpose section.

1. [ACTION] Adopt ordinance.

Ryan's marginally helpful diagram.

The height code proposal works like this for most single-family houses: the top 30% of the structure is excluded from calculation, so a house with a more sloped roof can poke up higher above 30 feet. The Oak house with a less sloped roof can must have a lower total height; the Cedar house with a very high pitch occupies less visible space. The purple line shows that the 30 foot maximum. All single-family dwellings remain limited to 35 feet at the tallest point.

The following chart shows the maximum height based on the width of the house. Of course, if it is always capped at 35 feet. Most houses set the roofline parallel to the long edge of the house, which is typically less than 40 feet.

						<del></del>				1
House Width Half of House		40	38	36	34	32	30	28	26	24

						**-				

As a reference, Mahtomedi defines building height similarly to this proposal, except it allows half the vertical height to stick above the limit (rather than 30%).

Building Height. The vertical distance measured from the average ground level prior to construction to the top cornice line of a flat and mansard roof, to the uppermost point on a

shed, round, or other arch-type roof, or to the midpoint of the tallest gable of a pitched or hipped roof.

ORDINANCE NO.	
---------------	--

AN ORDINANCE AMENDING SECTION 302.045 OF ORDINANCE NO. 302 ADOPTED ON DECEMBER 13, 2016, AND TITLED "ZONING CODE REQUIREMENTS AND PERFORMANCE STANDARDS."

### Findings and Purpose:

Our structural height restrictions limit energy-efficient housing design. New energy code requires 7-inch energy heel, 9-foot ceilings, and building methods that use 18- to 48-inch deep trusses to span open floor plans result in common two-story building heights that can easily exceed the existing code limitation of 30-foot average exposure height on a flat lot. Allowing higher structures when roofs have greater pitch balances goals of regulating structure size and meeting stricter energy codes.

This changes allows the upper 30% of a roof of a house or its attached garage, measured vertically, to protrude above the 30-foot maximum structure height. It limits the amount of the structure that may fill that area, preserving light and space outdoors, but reducing the advantage in expanded interior space that flatter roofs provide over pitched roofs.

Our current code for detached structures has more reasonable results; that is unchanged:

# The City Council of The City of Birchwood Village, Minnesota ordains:

**Section 1.** Section 302.045 of Ordinance No. 302 adopted on December 13, 2016 and titled ZONING CODE REQUIREMENTS AND PERFORMANCE STANDARDS is amended to read:

## 302.045 STRUCTURAL HEIGHT RESTRICTIONS

- 1. The height of a structure shall not exceed the maximum structure height for its type in 302.045(2).
- 2. STRUCTURAL HEIGHT LIMITATION: The maximum height of a structure as calculated by Method A, B or C (see below) is as follows:

Structure type	Maximum Structure Height
Principal Structure/attached garage	30 feet
Detached garage	18 feet
Detached storage shed	12 feet

METHOD A: (Applicable to principal structures and attached garages.) For flat and shed roofs, the height of a structure is the vertical distance measured between the average elevation of the grade plane and the highest point of the roof surface. For mansard roofs, the height of a structure is the vertical distance between the average elevation of the grade plane and the break line. For gable, gambrel and hip roofs, the height of a structure is the vertical distance between the eaves and the average elevation of the grade plane, plus 70% of the vertical distance between the eaves and the structure's highest roof ridge. For gable, gambrel and hip roofs with uneven eaves, the average of the heights of that roof's eaves is used to determine vertical distance. The grade plane shall be calculated based on the method shown in Exhibit A below. Elevation points at the ground level shall be evenly distributed along each façade.

METHOD B: (Applicable to detached 3-dimensional structures, e.g. detached garages and storage sheds): The height of a structure is the difference between the elevation of the highest point of the structure and the average elevation of the grade plane. The grade plane shall be calculated based on the method shown in Exhibit A below. Elevation points at the ground level shall be evenly distributed along each façade.

METHOD C: (Applicable to structures which are mainly 1- or 2-dimensional, e.g. towers and walls.) The height of a structure is the difference in elevation between any point on the structure and the ground directly below that point.

## 3. Grading/Fill Limitation

The grade of the property shall not be changed to comply with height restrictions.

### 4. Tallest Point Limitation

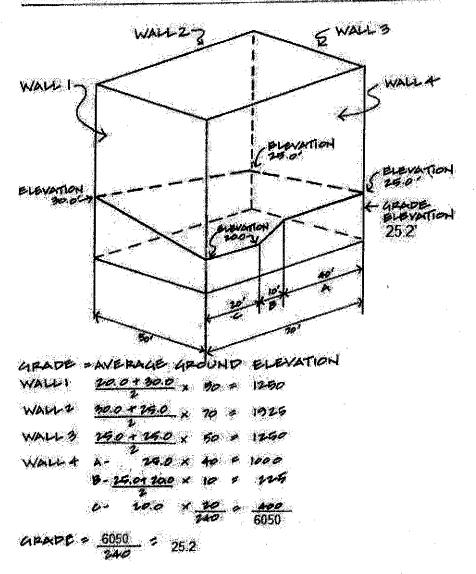

Regardless of the structure height limitations for principal structures specified in section 302.045 subsection 2 above, the lowest point on the façade to the tallest point of a structure shall not exceed 35 feet. Also, the tallest point of an attached garage shall not exceed the height of the tallest point of the principal structure.

### 5. Exceptions.

The maximum structure height and tallest point limitations established herein shall not apply to chimneys and flues, provided the footprint or horizontal area of the chimney or flue does not exceed 16 square feet and the top of the chimney or flue and does not extend more than three feet above the tallest point of the roof.

# SUPPORTING INFORMATION FOR REQUESTION FOR PC.

As you know, the council approved \$2500 for two new laptops. The purchase is complete and we are in the process of scheduling them to be installed. (Part of the delay has been administrative on our part). Because one of the PC's could be used for presentations by the Administrator, I requested a reimbursement for one. The reimbursement occurred last month. Based on our needs in the office, I believe we need three PCS. I would like to propose we purchase a desktop. That can be used for the CTAS software and for other administrative functions. I checked with METRO-INET and they said they could get a PC shipped tomorrow for \$629. This would be a standard PC with 16 GB RAM, I5 and 256 Storage. If we wanted 1 Terabyte SSD it would be more. However, I can't see how this desktop would need additional storage as all is saved to the ONE Drive. I asked about support and they would cover this year without any additional charge. 2024 would be an additional cost of \$1016 annually. Thank you for your consideration.

### **New Business**

Approve the processing of hourly permit fees by our Planner and Engineer through emailed confirmations presented by them. These emails will provide the hours spent reviewing individual resident permit applications. Purpose is to expedite the charging and collecting of permits fees upfront, rather than waiting for monthly billings presented by our Planner and Engineer. In turn, this will expedite the handling and processing time for our residents and reduce admin costs.

Note: In the event unforeseen expenses occur, the resident will be issued an additional invoice by the city for those costs.
